

Description

Robert William James & Associates has been assisting employers hire top talent for over 30-years. Our clients have come to depend and trust in our ability to locate, identify and fully qualify professional and executive level personnel that meet and exceed their needs.

RWJ is currently partnering with an established and successful multi-disciplinary engineering firm looking for a talented Landscape Architect/Planner searching for their next career step. Working with internal and external clients, this professional will lead a team focusing on conservation and green design for both commercial and residential projects in a wide variety of disciplines. Future growth potential includes division leadership and ownership roles. This opportunity includes a generous benefits package, employer matched 401K, and a comfortable but professional work environment.

Requirements

- BS in Landscape Architecture or Design
- Licensed Landscape Architect
- ASLA certification
- Knowledge and experience with mid-west plant types
- Previous LA management or supervisory experience
- Strong project management experience
- Experience and interest in LEED design
- Strong written and verbal communications skills

If you meet the above requirements and are interested in taking the next step in your career, please contact Eric Schultz, General Manager, Robert William James & Associates at (800) 357-8403 or forward your resume to Eric@RWJRochester.com.
